[DISPATCHES TO THE OREGONIAN.]

DATES TO MARCH 20.

Congressional.

WASHINGTON, March 19.—In the Senate, Conness introduced a resolution to discover how the proceedings of the Senate in executive session were made public.

Cole of Cal. introduced a resolution requiring the U. S. Survey officers to investigate the expense of surveying a harbor in the vicinity of Point Sal, coast of California, and make an estimate of the expense necessary to render said harbor available for the purposes of commerce. Adopted.

Cole also introduced a bill to further define the qualifications of members of Congress, no person to be eligible who has borne arms against the Government. Referred.

A committee of conference was appointed on the amendment to the supplementary reconstruction bill.

Johnson of Md., said he was requested by his colleague Thomas, to report the charges made against him yesterday. He would move to refer his credentials to the Judiciary Committee for a full investigation. Agreed to.

After a short executive session, the conference committee on the supplementary reconstruction bill reported that they had agreed to the Senate proposition that a State Constitution must be ratified by a majority of votes given and a majority of registered voters voted on the question of ratification. An act was adopted that Congress must be satisfied that the election was held without restraint and the Constitution was approved by a majority of qualified voters. Adjourned.

In the House a conference committee was appointed on the reconstruction bill.

Stevens of Pennsylvania called up his motion to reconsider the vote to refer his confiscation bill to the Committee of the Whole. Stevens proceeded to read a lengthy speech, but proved too weak to finish it. The clerk of the House read the remainder of his speech at his request. On motion of Stevens, the consideration of the bill was postponed until December next.

The House Committee of the Whole considered the Senate bill appropriating one million for the relief of the destitute in the South. After a long debate, the committee rose.

Banks of Massachusetts offered a resolution of inquiry as to what measures had been taken in foreign Governments to secure the control of any routes across the Isthmus of Panama, Honduras or Tehauntepec, also what action should be taken to secure the interests of American commerce.

The report of the Conference Committee on the Supplemental Reconstruction bill was adopted. The bill now goes to the President. Adjourned.

Washington News.

NEW YORK, March 19.—The *Times'* supplement says the disagreement of the two Houses on the second amendment proposed by the House to the supplementary reconstruction bill may require a committee of conference. The House insists that a majority of registered electors must vote on ratifying the constitution. The Senate insists that the aggregate vote shall be equal to the registered votes, but a majority of half shall be sufficient to ratify.

The President and cabinet are laboriously engaged in examining applicants for office to supply the large number of vacancies caused by the Senate rejecting nominations. About one third of the offices are without incumbents. There is a dead lock between the Executive and Senate, the latter seeming determined to force the nomination of thorough radicals. The condition of the offices is illustrated by Philadelphia, which is without a naval officer, collector of customs, one revenue collector and director of the mint. From one of the positions there have been three rejections. The *Tribune* is against the rejection of good men merely because the President has nominated them. It instances the case of General Roberts of Brooklyn for Postmaster, a sound Republican of good record.

The *Tribune's* special says that the Democratic members of Congress have held a secret caucus and resolved to wait upon the President in a body to protest against the further appointment of Republicans and to insist that the Democrats shall not be ignored.

WASHINGTON, March 19.—It is reported that Collector Smythe and Surveyor Wakeman will be removed and their successors nominated this week. The collector and naval officers will be Democrats and the surveyor a radical.

Gen. Pope has been appointed commander of the Third Division under the reconstruction bill. Gen. Thomas remains in the Department of Cumberland.

WASHINGTON, March 19.—Commissioner Bogy has commenced negotiations with the Indian tribes, preparatory to their removal to the new reservation in time to make a crop this season.

Among the confirmations by the Senate to-day were Thos. J. Bidwell, Postmaster at Chico, Cal.; G. C. Haven, receiver of Public Moneys at Stockton, and Ephraim C. Holmes, Register of the Land Office at Denver, Col.

NEW YORK, March 19.—The Senate has confirmed the nomination of H. M. Brent, as Secretary of Legation at Lima, Peru.

The Stevens bill, called up in the House to-day, provides for the confiscation of all public lands belonging to the ten rebel States and all lands and other property subject to forfeiture under the act of Congress of July 17th, 1862, all of which is to be seized, condemned and sold. Each adult male freed slave to receive forty acres, and each one the head of a family, forty acres more out of the proceeds of the sales of the balance, fifty dollars to be appropriated for each household to be used in erecting buildings for the late slaves. $200,000,000 is to be invested in six per cent bonds and interest added for pensions for Union soldiers; $300,000,000 to be appropriated to pay the damages sustained by loyal citizens by the civil or military governments of the Confederacy.

The *Times* says that under this clause Stevens will be reimbursed for property belonging to him destroyed at Chambersburg.

Stevens in his speech yesterday said "No party or committee has had the consideration of this bill. It is chargeable to the President and myself. Whatever merit it possesses is due to Andrew Johnson."

Although the Capitol police consists of only thirty men there are about 500 applicants for positions, some of whom have served as Brigadier Generals in the Union army.

The Chivalry Seeking favor of the Negroes.

NEW YORK, March 19.—A special dispatch to the *Times* from Columbia, S. C., dated the 18th, says one of the most remarkable colored meetings ever held in the State was held here to-day in celebration of the enfranchisement of the negroes. By invitation, Wade Hampton, W. F. Dissaussure, formerly U. S. Senator, Wm. Talley, Edward Arthur, James Gibbs, and other eminent leading men addressed the meeting. Also David Pickett and Beverly Nash. The sentiments expressed were highly honorable on both sides. The negroes were gratified by the political approbation with which they have been met. Should a convention be called, they will probably nominate and support the best men in the country, and as declared by Nash, will urge Congress to repeal the clause disfranchising those in whom they have the greatest confidence.

Fenian Matters.

TORONTO, March 18.—A Fenian spy was arrested at suspension bridge. He had a plan of the city of Toronto with the location of banks and public buildings and also a map of the Niagara frontier and a list of the Judges who sentenced the Fenian prisoners, the prosecuting attorneys and witnesses. The Hibernian Society was not allowed to parade. Great excitement prevails on the Canada side. Buffalo is full of Canadian spies. Nothing unusual has transpired.

NEW YORK, March 19.—The interception of the land communication with the cable, has renewed the hope of the Fenians that there may be a general uprising in Ireland on St. Patrick's day.

From the South.

NEW YORK, March 19.—The *Herald's* special says the military rule in Virginia is supreme but hardly apparent. In Charleston the revolution is accepted with a happy effect.

By the fire-eating politicians of Louisiana Sheridan's order postponing the election is accepted without disturbance. The impeachment of Governor Wells has been referred to a special committee.

Dr. Livingstone.

NEW YORK, March 19.—The report of Dr. Livingstone's murder rests on the authority of nine native attendants. They say the attack was made suddenly and half the party murdered. Livingstone was not murdered by them facing him, but was cut down from behind while endeavoring to re-load his revolver.

New York Legislature.

ALBANY, N. Y., March 19.—The bill regulating prostitution in the city of New York was reported against unanimously. The Senate passed the underground railroad for New York City.

Reconstruction in Alabama.

SELMA, March 18.—The largest meeting ever witnessed in this city was held here yesterday. Resolutions were unanimously adopted, strictly Union sentiments acknowledging the right of Congress to prescribe the terms of reconstruction necessary to the re-admission of the seceded States and urging the people of Alabama to forthwith accept the beneficent terms of reconstruction offered to them.

LITTLE ROCK, ARK., March 19.—The Governor has vetoed the bill loaning $10,000 per mile to aid in building the Pacific Railroad. It will probably pass over the veto.

Miscellaneous.

ALBANY, March 19.—A bill providing for a Constitutional Convention passed both houses.

CHICAGO, March 20.—The main portion of Bothwell, Canada, was burned yesterday. One hundred houses were destroyed, and a large number of families are rendered houseless. The town is situated in the business centre of the Canada oil region.

NEW ORLEANS, March 19.—Sheridan's order says that no general removals from office will be made unless the present incumbents fail to obey the law of reconstruction. Pending the reorganization it is intended to make as little disturbance as possible in the machinery of the various branches of the provisional governments. This condition is dependent upon the disposition of the people, and steps will be taken for the reorganization of the Courts.

NEW YORK, March 20.—Nine car loads of Fenian troops fully equipped left for Oswego to-day, where it is doubtless intended that they shall operate in the apprehended movement of Fenians against Canada. The latest dispatches give no encouragement to the brotherhood. The excitement has subsided. The belief is general that an insurrection is intended in Ireland and that the disturbance was accidental and temporary. The movement against Canada claims more attention and is believed to be nearly at hand. Montreal has been greatly excited over the reports that the Victoria bridge and powder magazine would be blown up. A council has been held and more troops sent for to England. Many Irishmen are assembling at St. Albans, and it is supposed that that place will be the base of the Fenian movement.

Advices from British Honduras to the 22d ult. says, the British troops have gained important victories over the Indians. Many villages were burned and destroyed.

A Richmond special says the Union men are canvassing the State of Virginia to counteract the influence of prominent rebels who accept the situation, and will endeavor to secure the negro vote for their own particular end.

A Washington special to the *Times* says Senator Conness declines re-nomination.

A meeting in Buckingham, Va., endorsed the military reconstruction bill and formed a call for a State Convention.

CHICAGO, March 20.—A *Republican* special says it is probable that Senator Thomas of Maryland will be refused his seat on account of aiding the rebellion while a member of Buchanan's Cabinet; also that Senator Patterson of Tennessee will be ousted on account of taking an oath to support the Confederacy while a Judge.

It is said the President will immediately veto the supplemental reconstruction bill, giving the same reasons as in his veto of the former bill. Congress will then adjourn by Saturday to next winter.

QUEBEC, March 19.—A large body of seamen belonging to her majesty's service have been sent west to equip gunboats on the lakes for service as soon as possible. The celebration of St. Patrick's day caused a larger turn out than for many years.

MARYLAND, Annapolis, March 19.—The bill allowing negro testimony failed for want of a constitutional quorum. Many members were absent. A reconsideration has been moved and the bill will probably pass.

R. H. Newell has obtained a divorce from Adah Isaacs Menken.

Trade Report.

NEW YORK, March 20.—Trade very dull. California flour closed at an advance. Extra is held at $12 50 to $14 25. Cotton, firm; middling quoted at 32 to 33½. Coffee closed firm; Rio at 13. California dry hides quoted at 17½ to 18. Pork advanced; new mess brings 21. Lard in bbls held at 13 to 13¼; in tins 16. Refined sugar lower; sales at 17. Butter closed steady at 37. Crude whale oil from California brings 75. Linseed oil is quoted at $15 75. Printing paper is unchanged. Petroleum in tins held at 34 to 37. Whisky 30 to 36. Wool closes quiet, California wool 25 to 35. Adamantine candles, unchanged.

From Mexico.

NEW YORK, March 19.—The *Herald's* special from Queretaro says Maximilian was severely annoyed by the guerrillas on the march from the capital. His wardrobe was reduced by forced loans to a shirt, a pair of socks and a piece of soap. Bazaine was expected to leave in a day or two. In the march from the interior he was robbed of $3,000. Tulancingo was captured by the liberals.

NEW YORK, March 19.—The Mexican Minister at Washington is expecting to hear of a battle between Maximilian and Escobedo near Queretaro; also intelligence of the liberal occupation of Vera Cruz. According to accounts of Imperialists Yucatan continues loyal to Maximilian. The Imperial Commissioner has left the country, all efforts to revolutionize the State having failed. Maximilian's force advancing on Queretaro is estimated at 7,000. Muxes is head of staff.

BY ATLANTIC CABLE.

PARIS, March 18.—A debate occurred in the corps Legislatif, last evening, regarding foreign affairs, in which Representatives Thiers and Favre attacked the foreign policy of the Emperor, on the grounds that it favored unity in both Germany and Italy, which was hostile to the interests of France. Muraton, Rowden and Representative Olliver defended the course of the Government.

LIVERPOOL, March 19.—Severe gales have prevailed nearly all the week, which have been very disastrous to shipping. Many shipwrecks are reported on the English and Irish coast.

LONDON, March 18.—Arrests of Fenians continue in Ireland. Head Centre Donovan, who was captured in Cork, and Burke, one of the leaders recently captured, and forty others, have been sent in irons to Donegal and put in jail.

LONDON, March 19.—The debate on the Reform bill has been postponed to the 25th inst.

Agents of the Russian Government are said to be purchasing vessels in this country and on the continent, to be used as transports.

Consols closed at 91. U. S. Five-twenties, 74½.

BERLIN, March 19—Evening.—It is reported that a secret treaty was made between Prussia and Bavaria, in August last, and that by one clause of the treaty Prussia may assume the military direction of the Bavarian arms.

FRANKFORT, March 19.—U. S. Bonds, 77¾.

PESTH, March 19—Evening.—The coronation of Francis Joseph as King of Hungary during his present visit to this city, is strongly urged by all parties. The newly elected Hungarian members took the oath of office to-day.

LONDON, March 18—Midnight.—In the House of Commons the Government asked formal leave to bring in a Reform bill to-morrow. Disraeli explained the features of the proposed bill introducing copious statistics in support of its principles.

Gladstone made a short speech, saying he thought the figure absurd, but would defer debate till the bill came before the House.

BERLIN, March 18.—It is stated that Bismarck has refused to protest against the absorption of Poland into the Russian Empire.

VIENNA, March 18.—An order has been sent to America, recalling Admiral Tegethoff to take command of the Adriatic fleet.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, March 19.—The steamer *Ajax* sailed for Portland to-day with a large number of passengers, including a large number of Chinese en route for the northern mines.

The Pacific Mail Steamship Company's *Constitution* sailed for Panama this day with 277 passengers and $877,018 in treasure.

A private dispatch, received via St. Petersburg, announces the loss of the Western Union Telegraph Company's bark *Golden Gate* in the Amalayer river where she was jammed to pieces in the ice. The disaster is supposed to have happened in December. All hands on board were saved.

The trial of the suit of Caroline F. Clark vs M. Reese, to recover $100,000 damages for an alleged breach of promise of marriage, was to have been tried in the Fifteenth District Court to-day, but owing to the illness of the counsel for Mr. Reese the case was continued until to-morrow. The trial will probably occupy several days.

Judge Rix, of the Police Court, met with a severe accident yesterday. He was walking along Battery street and happened to be passing a pile of bricks just as a car came along. The bricks were walled very near the track, but Judge Rix supposing that there was room for a car to pass by, stopped and leaned close against the pile, but he had miscalculated the distance, for the car came upon him, jamming him against the wall, and before the conductor was aware of the accident, he had been turned several times around and lifted completely off his feet. Judge Rix was extracted in a miserable condition and taken to his residence. He is seriously bruised, but it is thought that he has sustained no internal injuries of an alarming character and no bones broken.

The French transport *Dreuse*, which arrived yesterday from Tahiti, is the first of a regular line of Government vessels that are to make monthly trips to this port.

The successful working of the Atlantic Telegraphic Cable, naturally bringing San Francisco into about hourly connection with Paris, has induced the French Government to transfer their base of supplies from Valparaiso to this city. The *Euryler*, the next transport which is to bring the Governor of Tahiti as a passenger, was to leave in a month after the sailing of the *Dreuse*. We are informed that the Governor, on his arrival, will advertise for proposals to furnish the great bulk of the subsistence supplies for all the French forces in Tahiti and other States in that section of the South Pacific. The value of these States will amount to several hundred thousand dollars annually, the larger portion consisting of flour, beef, bread, pork and other domestic productions of California.

U. S. Marshal Rand to-day made several seizures of the books and papers of B. E. Angel & Co., Edward Dupuy, P. Maury, Jr., Dubidate & Co., H. Schroder & Co., importers of French wines to be used as evidence for the Government in certain wine cases, some of which are likely to come on for trial to-morrow in the U. S. District Court. The parties above named and claimants in the several suits brought for the confiscation of certain wines in bottles and bulk which were seized by the Custom House officers during James' administration as Collector.

The suit of the U. S. vs. Kohler and Frohling is on trial in the U. S. Circuit Court to-day. The action is brought to procure a confiscation of certain California wines and brandies valued at $30,000, which were seized by the Internal Revenue officers for alleged false returns made by claimants as to the quantity of wines and brandies manufactured by them during the year 1865.

Gold in New York yesterday was 134, sterling 135½, dull. Legal tenders are in better demand, in part for the payment of freight at 74¼ buying and 75 selling.

Arrived, March 18—Steamer *Del Norte*, 4½ days from Crescent City; ship *Volunteer*, 159 days from New York; ship *Fleetwing*, 121 days from Boston; ship *R. Robinson*, 149 days from New York; bark *H. A. Banks*, 9 days from Seabeck. March 19—Ship *Charles Luling*, 151 days from New York.

Sailed March 19—Steamer *Constitution*, Panama; steamer *Ajax*, Portland; ship *Ella Norton*, Boston.

SAN FRANCISCO, March 20.—The steamer *Colorado*, which sailed from San Francisco on the 1st of January, to inaugurate steam mail service between this coast, Japan and China, returned safely to her berth in this city, this morning, having made the first round trip in seventy-nine days, including stoppages of eighteen or nineteen days at Hong Kong and three days at Yokohama, making the actual sailing time, going and coming, fifty eight days, the total distance traveled being about 14,700 miles, which would show an average speed of about 249 miles per twenty-four hours. The outward passage to Yokohama, a distance of 5,200 miles, was made in a little less than twenty-two days without stopping, and the weather was not very bad, except for a few days. There was not a single stoppage or incident on the way. The *Colorado* was warmly received at Yokohama and received with marked attention from the French war ship in port. The English and other residents of Hong Kong gave the *Colorado* a very cordial greeting. She remained there from January 30 to February 17 an object of great interest to crowds of visitors, when she started on her return trip, reaching Yokohama in a little less than eight days, and three hours the return trip being a stormy one. On the 28th of February after a stoppage of two days, she sailed again for San Francisco and made the trip in twenty days, experiencing considerable heavy weather. The outward trip occupied about twenty-eight and a half days, including of one day at Yokohama. The homeward trip occupied thirty one days, including two days stoppage at the same port.

Among the passengers by the *Colorado*, are two commissioners from Japan, named respectively Onotomongoro and Undano. They come to inspect our navy yards, forts, vessels and implements of war, and are accredited to Washington whither they will proceed by the next steamer. Their arrival was at once telegraphed to Secretary Seward. The commissioners and their attendants make a party of ten persons in all. The present Tycoon is favorable to form intercourse with foreigners, and the benefits of his liberal policy will be enjoyed in a larger degree by the United States than any other country.

One of the passengers is G. F. Seward, American Consul General in China and nephew of Wm. H. Seward, who is on his way east after an absence of several years in China.

Gold sold in New York yesterday at 134, sterling dull at 108½; legal tenders are quiet at 74¼ buying and 75 selling.

The steamer *Oriflamme* which left Mazatlan Feb. 28th arrived here to-day noon.

Two cases of small pox have been reported to the health office this morning. One is a servant girl and the other a passenger by the steamer *Constitution* from the East.

Messrs. I. D. Hendley, J. A. Paxton and J. H. Wright, have filed with the county clerk a declaration of their intention to petition Gov. Low for the pardon of Peter D. Headley, who was convicted of embezzlement and sentenced to three years imprisonment in the State prison on December 8th, 1866.

The trial of the suit of Caroline F. Clark vs. Michael Reese to recover $100,000 damages for an alleged breach of promise of marriage, is now going on in the 15th District Court. The promise is said to have been made in 1864 and broken in 1866. Mr. McAllister desired that the trial be conducted in private. Mr. Campbell objected, as the charge against plaintiff had been spread broadcast over the land, and she desired that her vindication should be in a public manner. Judge Dwinelle stated that there was no power under the statutes for excluding spectators. The court room was crowded with spectators.

From Chinese papers we collate the following items of news.

A terrible explosion took place in the harbor of Hong Kong about noon, on the 17th of January. A hulk called the *Zephyr*, used for storage of powder, blew up and was totally destroyed, as well as the *Bremen* and a three masted schooner, the *Themis*, which was taking in powder at the time. From thirty to forty persons were killed in all, those on board the above named vessels being blown to atoms, as no fragments of them were afterwards found. Many persons who were in boats in the neighborhood were killed by the explosion. There were two Europeans on board the *Zephyr* and seven Europeans and two Chinese on board the *Themis* of whom no trace was found. The *Zephyr* had 209,000 pounds of powder on board. Though on the opposite side of the harbor, the shock of the explosion made the town of Hong Kong shake as with an earthquake, while window frames, in many instances, were torn from their fastenings. Four English gunboats that were moored in the vicinity of the explosion, barely escaped destruction, some of them being covered with falling sails and a number of iron bolts, which latter, however, did little damage. The boats of British men of war and the United States steamer *Hartford*, the *Ashuelot* and the Italian frigate *Magenta* were at once lowered and proceeded to the scene of the disaster, but nothing was to be seen but a disturbed sea of small pieces of charred wood, with here and there a piece of a timber stanchion. At the village of Yaumahecto, on the Kowloon side, opposite where the *Zephyr* was lying, considerable damage was done, some 130 houses having been more or less shaken down and unroofed. The noise of the explosion was distinctly heard on the steamer *Kingshaven*, on her way down from Canton, when abreast of Woo Chow, thirty miles distant. It was reported that some chain cable and part of a mast were found in a field near three quarters of a mile from the water's edge.

The United States steamer *Wachusett* left Chee Foo on the 21st of January, for Corea to make inquiries in regard to the fate of the American schooner, *Gen. Sherman*, which had been wrecked there. It was reported that the English, French and American ministers have agreed to go there together in the spring, accompanied by their respective fleets, and insist on treaties.

An extensive fire occurred January 25th in the native suburbs of Foo-Chow, extending along the river bank about half a mile inland. The fire burned for over nine hours, and it is reported that 18 Mandarins and a number of Chinese were lost.

Markets.

Flour—There is a fair jobbing trade in progress, and prices are firm at the rates which have been ruling for some time past.

Wheat—Inferior $1 60, good shipping $1 80@1 90 ₱ 100 lbs.

Barley—Sale of 200 sks choice feed 82½c. We quote the range at 67@87½ ₱ 100 lbs for feed and brewing.

Candles—Morris 22c.

Sugar—Circle "A," crushed, 14½@13¾; granulated, 12½c.

Coffee—10½@11c; powdered 13@13½c—latter figure in boxes.

Syrup—Sale of 3,000 kegs San Francisco and Pacific and Bay Refinery 74c, now held 76c, hlf bbls 71c; bbls 69c.

Shipping.

Arrived—March 19th, Norway ship *Oslo*, 157 days from Glasgow; bark *Milan*, 9 days from Tekalet; bark *Oak-Hill*, 8 days from Port Blakely, with lumber; brig *Kulco*, 30 days from Coos Bay, lumber; brig *Manuela*, 10 days from Bolinas Bay, oil; schooner *Minerva Worth*, 8 days from San Diego, copper ore. March 20th, British brig *Frank*, 6 days from Kanagawa, teas.

Sailed—March 19th, brig *Deacon*, Puget Sound.

FROM THE NORTH.

VICTORIA, 19.—A large and enthusiastic public meeting was held last night for the purpose of discussing the propriety of applying for admission of this colony into the British North American Confederacy on fair and equitable terms. The meeting was unanimous in favor of the scheme, and steps will be taken at once to confer with the Imperial Government and Confederation authorities on the subject. A resolution to the same effect has also passed the Legislative Council.

FROM THE UPPER COLUMBIA.

A correspondent of the Walla Walla *Statesman*, writing from Colville, February 27th, furnishes the following intelligence:

On the 18th inst., about 8 A. M., Judge —— Stewart, an old citizen of Colville, was shot by a soldier, the particulars of which, as near as I can learn, are about as follows. On the evening of the 17th, a soldier had a little difficulty with Jack Shaw, at the saloon of Shaw & Stewart, the soldier getting a little worsted. Early the following morning, he, with twelve or fifteen of his friends, came to the saloon for the purpose—as stated by some—of giving Shaw a whipping—the aggrieved soldier to do the fighting, and the remainder to see fair play. From four to six had their muskets. They marched through town, and went into the saloon, but little noticed by the few citizens who were up, as it was thought to be only a patrol. Shaw & Stewart were cleaning out the saloon at the time they stepped in. Stewart walked behind the bar, and three or four of the party, including the one who had the difficulty with Shaw the evening before, went to the back end of the saloon where he was, and commenced assaulting him. The remainder of the party stopped near the door, some of them demolishing the bar fixtures, while the rest, from all appearances, were watching Stewart's movements. During this time Stewart, it seems, stooped down as though to pick up his revolver, which he always kept behind the bar, when a shot was fired by one of the party in front of the counter, the ball entering just below the right shoulder blade and passing out on the left side of the neck, producing instant death. He did not speak after he was shot. Immediately after the shot was fired two or three citizens stepped in, and as they entered the soldiers rushed out. On examination, Stewart was found to be entirely lifeless, while Shaw was not much hurt, his life being saved by the interference of the soldier with whom he had the difficulty on the previous evening, he catching hold of the gun of another of his party as he was in the act of thrusting his bayonet into Shaw. There has been but six of the party identified, two of whom have been held over for murder, and four as accessory. It is very difficult to find out the exact particulars as to who fired the shot. It was a musket ball, and passed through two inch boards. Shaw was the only man in the saloon, (aside from the soldiers,) when Stewart was killed, and he was engaged at the further end of the room in a hard scuffle, and consequently saw nothing of the shooting.

Capt. Wharton, the officer in command, is using every effort to identify the parties, and turn them over to the civil authorities for investigation.

Deceased was buried on the 20th by the Masonic fraternity. His remains were followed to their last resting place by a large concourse of people, all of whom deeply mourn his loss, for he was a good citizen and a noble hearted gentleman, loved and esteemed by all who knew him. He was, I believe, a native of Connecticut, but from New York to this coast, as appears from the Masonic diploma.

MINING NEWS.

News from Creek '49 is very encouraging. Some letters received from there from parties who state they have found a very good prospect, and have made preparations for, and soon will be, sluicing. They write their friends to come at once, for they believe that the diggins will pay very well. The knowing ones appear to think that this will be a very good camp, though not extensive. Quite a party of miners will start in a few days for that place. '49 creek is a stream emptying in the Kootenai river about fifteen miles above its mouth, and on the North side. The mines are reached by way of the Columbia river to the Kootenai, in boats. It will require but very little work to make a good pack trail up the Kootenai into the mines. The country presents fine grazing qualities along this route near the mouth of the Kootenai. There has been no news from the two parties who are at work on the Pen d'Oreille, below the old Kalispel Mission. The party who left Colville some time since, in search of them, appear to have had a roving commission, having wandered up and down the river for a number of days, and not finding the parties whom they were hunting for, they returned.

SNOW STORM.

Colville valley and the surrounding country, has been visited by a severe snow storm, which is something very unusual for this season of the year. There is more snow on the ground at present, than has been seen here before for eight winters. Harry Young and Roma, while on their way from Walla Walla to Colville, got lost between Willow Springs and the Spokane. They wandered about in the snow for three days with nothing to eat, and had just passed the sentence of death upon one of their horses, and set the time of execution to be that evening at dusk, when they hove in sight of the Spokane river, about seven miles and a half below the ferry. They soon reached the house in safety, and after remaining there a few days to recruit up, they came on to Colville as though nothing had happened them. Notwithstanding the amount of snow that has fallen, the weather has been very [illegible]

HARD TIMES.

Times have been extremely dull in Colville during the past winter. Money is very scarce and consequently produce has a very poor market. Colville feels the loss of her Chinamen, they having been the principal consumers of [illegible] productions. They worked and took out [illegible] bars on the Columbia and Pen d'Oreille rivers, where white men would not work, [illegible] every dollar they made was money put in circulation, and the benefit of which would [illegible] have been felt had it not been for them. [illegible] that since the China poll tax has been [illegible] that they will return. It is believed [illegible] return of spring and communication [illegible] up to the different mining camps times [illegible]

NEW BRIDGE.

The bridge across the Spokane, on the Walla Walla and Colville road, is now completed and ready for travel, (excepting loaded teams). As soon as the iron can be got up from [illegible] it will be thoroughly braced. After it is completed it will be a good, and from all appearances a substantial bridge, surpassing anything of that kind ever built on the Spokane.

FROM SOUTH BOISE.

A correspondent of the Boise *Statesman* writes from Rocky Bar, March 1st, as follows:

Foremost among the ledges in our camp that are known to be true fissure veins of rich gold and silver quartz rock, are the Atlanta, Elmore, Lucy Phillips, Eclipse, Grey Eagle, Minerva, Magnet, Hard Times, Silver Star, John Bascom, Ed Walls, Pacific and Jessie Benton.

From the Atlantic the De Frees company are taking rock which is very rich, and [illegible] of it will equal in richness the best [illegible] ever taken from the Poorman of Owyhee. The ledge is twenty-two feet wide at a depth of ninety feet, and the average pay of the entire ledge is computed at seventy five dollars per ton. Mr. Clark, of Indiana, has purchased two hundred feet in the fourth east extension, for which he pays ten thousand dollars in gold coin. The entire ledge for a distance of over four thousand feet has been thoroughly developed, and assures its owners of a fortune either by selling or working it.

Lucy Phillips ledge is owned by Messrs. Massheeu, Graham & Co., upon which they have spent a large amount of money, in running tunnels and sinking shafts in their lower [illegible] They have struck a splendid ledge, containing some very rich silver ore; in fact the entire ledge is rich and cannot fail to prove a valuable property to its owners, who intend putting up a large mill in the spring for the purpose of working the ore from it.

The Eclipse Discovery is owned by the same company, and Mr. Graham has had a tunnel run this winter, striking the ledge at a depth of one hundred and fifty feet from the surface. The ledge is over nine feet wide, and rich enough in gold and silver to satisfy the most avaricious.

The First Extension on the Eclipse ledge is owned by Messrs. Richard [illegible] & Co., and upon it they have a tunnel run [illegible] they also have nine feet solid ledge of rich [illegible] ore.

The Gray Eagle is owned by Williams, Stevens & Co. They are sinking a shaft on a sixteen feet ledge and getting very fine rock. They are down some ninety feet.

The Hard Times is owned by Col. J. W. O'Neil, and has been thoroughly prospected with tunnels. The Colonel is about starting for San Francisco with a twenty-stamp mill to put up on his ledge.

Mr. Wm. Clemens proved the Minerva to be a rich ledge last fall, and we are expecting him with a mill for it as soon as spring dawns upon us again.

Besides the work I have already mentioned, Mr. Wm. Johnson is running a tunnel on the Magnet lodge. Mr. Graham is more fully developing his Atlanta, Grey Eagle, Ed Walls, and John Bascom ledges by running tunnels that will strike them over one hundred and fifty feet deep. Mr. Wm. Kouns is running a tunnel for the main ledge. Mr. Wm. Burnett is taking rock from the Burnett ledge that pays in a mortar fifty cents per pound. In fact, every one is busily engaged at hard work trying to do that justice which the ledges of the Yuba deserve.

From Elk City.

The Lewiston *Journal* of the 8th inst. has the following:

Expressman Fairchild arrived from Elk City on Monday evening. He was one week making the trip down, including delays in consequence of the storms in the mountains. He reports the snow from four and a half to five feet deep in Elk City valley when he left—and from [illegible] feet on the mountains this side. The depth at Brown's Mountain House is eighteen inches; on Camas prairie, ten inches; at Cottonwood two feet, and on Craig's mountain from four to [illegible] and one-half feet on an average. [illegible] added over four feet to the depth of the snow on the mountain this side of Elk City. Notwithstanding the depth of the snow, the men [illegible] at camp are up and doing prospecting, tunneling and drifting, and some few hunting. A party had just gone to Red river, prospecting for quartz and placers. Duncan & Co's. tunnel has been extended 275 feet into American hill, and [illegible] feet of shaft have been sunk on the [illegible] vein, showing the vein at that depth upwards of two feet in thickness, and [illegible] well. New veins had been discovered on Relief creek, about six miles South-west of town, and also one on Clearwater, about [illegible] above Jackson's bridge. Samples of the ore were brought down by Fairchild and delivered to [illegible] for assay. One assay prospected twenty [illegible] dollars per ton, and one only eight dollars per ton [illegible] the others not yet known.

To the Traveling Public.

STEAMER
ELIZA ANDERSON,
D. B. FINCH.............................. Master.

THE ANDERSON HAS NOT BEEN HAULED OFF the route, nor will she be. She is the only ... that ever RUN REGULARLY on Puget Sound for any length of time. Has just been thoroughly ... and is in complete order for a long campaign. W... carry passengers, freight and stock CHEAPER than any other conveyance.

PASSAGE AT PRESENT:
TO VICTORIA................................ $3 50
RETURNING FROM VICTORIA...................... 2 50

Berths and Meals Included.

FREIGHT:
CATTLE, at present $2 00
SHEEP, at present............................... 50
MERCHANDISE, at present, per ton............... 2 00

THURSDAY MORNING, MARCH 21, 1867

The Wool Interests.

The new tariff does not materially change the duties on imported wools On comparing our report of the rates established by the new law with that telegraphed to the San Francisco papers we find some discrepancy between them Assuming that their report is more likely to be correct than ours, we use it for the purpose of showing by comparison the difference between the old rates and the new. By the old law the best grade of wool paid a duty of 12 cents per pound and 10 per cent *ad valorem*. Under the new law the same grade pays like rates. On the second class, under the old law the duty was 10 cents per pound and 10 per cent. *ad valorem*. The new law requires a like rate per pound, but adds one per cent to the duty *ad valorem*. The poorer grades under the former act paid 3 and 6 cents per pound, according to quality, under the present law they pay 3 and 5 cents. These are all the changes we have been able to note after a close examination of the schedule reported by telegraph.

These changes are not considerable enough to materially affect the market. Adequate protection is still afforded the manufacturer, and every inducement still exists for increased activity both in this branch of industry and in that of [illegible] husbandry. The reduction of internal revenue taxes on manufactures will also favor the wool interests, and under the present arrangement the production of wool and the manufacture of woolen goods should go on with increased vigor

Gold Yield of the Columbia Basin

A pamphlet has been prepared by E M Barnum, formerly of this State and now a resident of New York city, giving an interesting and valuable statement of the yield of precious metals in the Great Basin of the Columbia. The compiler has evidently taken pains to collect authentic statistics, and has presented them in detail and by comparative statements, in a very intelligible manner. By the report of the Director of the mint at Philadelphia it is shown that the total amount of gold deposited in the mint and branches during four years ending on the 30th of June, 1865, and reported as coming from Oregon and Idaho and Washington Territories, was $19,015,-372 15. The bulk of this was, of course, reported at San Francisco. The statement is then added that "a careful examination of the sources of the gold mined in the United States, and of statistics showing its final destination, gives decided evidence that, by as near an approximation as practicable, the amount of deposits at the mint and its branches, embrace about one-third of the total product of the mines" Following this rule, it would appear that the aggregate of the gold yield from the territory comprised within the Great Basin of the Columbia has amounted, since 1862, to the sum of $57,000,000.

For the fiscal year ending on the 30th of June, 1866, Oregon is credited with a gold yield of $914,-446 57, Idaho with $3,391,997 48, and Montana with $5,505,074 29. This does not include the silver yield, of which Idaho alone must have produced from $2,000,000 to $3,000,000. The product of 1867 without doubt will be largely in excess of that of 1866. It would be entirely safe to estimate that within the next four years the yield of the precious metals from the Great Basin of the Columbia will reach, and perhaps much exceed, $100,000,000.

Military Government.

That military government should be temporarily maintained in the South is regarded by those who have always sympathized with that section as a peculiar hardship. Such a proceeding is characterized as the most oppressive of measures, as the worst of tyrannies. One thing is especially [illegible] in connection with this matter—and that is that those who are so free to denounce legal military government in those States, never had a word to say in opposition to rebel military rule. So far as any one has ever been able to learn from their speeches or their writings, there was nothing at all objectionable, oppressive, unconstitutional or tyrannical in the military government which was instituted and maintained by the rebel authorities. If this military government was violative of the Constitution, the enemies of the loyal military government now in existence, did not know it. If martial law as administered by the Confederates was oppressive, they who now talk so vehemently against "military tyranny," failed to record that fact. If military rule under the Davis dynasty was an unwarranted usurpation, these guardians of civil liberty never made it known. They looked on with complacent approval while the South for the space of nearly five years, was governed by the most pitiless despotism that ever was known, and now for the first time sound the alarm and proclaim the danger to liberty when a military government is established, not for the purpose of oppressing the people, but to administer justice in the absence of laws adequate for their protection Then, they did not reclaim against military rule in the South. Then, they did not deem the liberties of that people in jeopardy. But now the case is altered, and they have made the discovery that a military government, established, not for the purpose of forcing men into the army or stripping them of their property, but for the preservation of order and the protection of all classes, is an unendurable despotism.

But there are others who are of opinion that if the people of those States could, without complaint, endure the rigid military rule of the Confederacy for so long a period, they may be able also to endure military government for a short time under the authority of the United States They did not complain of a military despotism that drove them into the rebel army and reduced them to beggary, and it does not look well for them to denounce a military government that is established, not to oppress them, but for the protection of all.

Judge Darwin of Washington Territory, who has been absent on a trip to the East for some months, has returned.

FROM OWYHEE

We obtain the annexed intelligence from the *Avalanche* of the 9th instant

MILITARY

Mr. J. M Eves, who has recently returned from a sage brush trip, obtained some definite news of General Crook's position He has been to Camp Warner and returned to Stein s mountain The snow storms have been so severe as to retard offensive movements About one week ago Major Walker, with one company of cavalry, left Camp Smith to join General Crook, under orders from the latter. This suits the Major, and indicates that General Crook knows where to find a large sized fight and is "going for it"

COSMOS MILL.

The Cosmos Company's mill had steam up last Monday for a practical test of the "Lewis Process." Mr. L made a visit to this camp last summer to examine mining property for a New York company, and while here, being a stock holder in the Cosmos Company, took a hearty interest in the production and results of their mill and mines. While here the Silver Chord ledge was purchased and worked with handsome returns He now visits this county again to look after the large interest owned by the Company, and also is making a valuable experiment in working the ores of this and Flint District

Having put up two machines capable of running four hundred pounds of pulp to each charge, he took three tuns of frozen pulp, from which had been taken the free gold by the battery, for a practical test. Some of the same class of pulp had been previously run through the Wheeler pans with all the science the camp afforded and with small results, while by this new and simple process Mr L took $30 per ton more than could be got by the old process, and this result from very poor class ore When the ore contains free gold he saves the most of it in the battery, while none, be it ever so fine, can escape his solution This solution retains all sulphurets, which are converted into chloride of silver and is soluble in the solution (thence precipitated and amalgamated with the quicksilver The action of the machine also forces the pulp through the quicksilver

WAR EAGLE.

We made a visit to this mountain on Tuesday of this week Found laborers in the Silver Cord, Woodstock Hays & Ray and Vulcan works

Superintendent Pearson led the way through the Silver Cord Only a small force of men are at present engaged therein, and they are more employed in preparing to take out ore than mining A shaft is being sunk from the main tunnel near the south line of the claim, where it is expected to place hoisting works At this point in the ledge it is very rich How far this golden deposit extends down or lengthwise of the vein none can tell until labor discloses it to view That which is in view is immensely rich and a few wheelbarrow loads contain a poor man's fortune A careful examination of what may be seen in the mine is anything but discouraging We believe that more attention to the quartz and less to the granite of that mine will soon enrich the stockholders, and this change of programme is certain

The Woodstock proprietors are at work on their ledge and the developments are favorable They have a shaft down forty feet and partly timbered in a neat and substantial manner The improvement has been gradual from the surface downward At one place a granite horse was encountered and continued down on the north side of the shaft to nearly the present depth, but has given out and a fine vein of quartz, rich in free gold and silver sulphurets, has taken its place At this point there is a full foot of quartz on each side of the vein, and at the south side of the shaft about two feet of quartz. The vein between the casings is larger and all the indications favor the belief that the whole vein will be quartz at no great depth. The present shaft will be sunk twenty or thirty feet deeper as rapidly as it can be done with the means at hand The owners hire no help and are not blessed with capital to open their mine, but are firm in their faith that they possess a true and rich vein, and none could give greater evidence of their belief They have some tons of rich ore out, in which free gold is generally visible. It is their purpose to save none but that which will be sure to yield a profit by careful milling, and hope by the time hauling can be done to have their mine in a condition to yield a constant supply of ore for five or ten stamps In an examination of a large tub full, taken out while there, every piece of any size showed free gold and black sulphurets

The Hays & Ray tunnel is being shoved into the mountain as rapidly as three shifts of men per day can do it, by the contractors, Messrs Barnham & Jackson. They have driven about fifty feet in a little over three weeks Considerable blasting is required. Some good ore is the tunnel is from near its mouth It does not bear an even width for any considerable distance, but out of the many seams and strata of quartz a better defined vein is forming The vein matter is precisely of the same general character as in the deep shaft on the Poorman's portion The progress of the tunnel is favorable to the interests of the Company.

The Vulcan ledge is a north extension of the Silver Cord—its dip, course and general features prove this beyond a doubt Mr Rinehart, one of the owners, is conducting work in a tunnel now sixty feet in the mountain. At about forty feet the ledge pinched out to a mere seam, but beyond that it widened out again and is fully two feet of quartz free granite and talc, with a general appearance of ore that will pay well for mining and milling.

FLINT DISTRICT

A correspondent writes from this District Notwithstanding the severity of the past season, we have not been idle, and you would be astonished at the improvements made within the last three months; mills have been built, tunnels run, and generally everybody seems to be awake to the fact that a bright future is before us, and that now is the time to secure its benefits. Greenwell & Carter's mill has been in operation for a few days, and is making a splendid showing Taking a stroll through the mill on yesterday, we were shown by one of the industrious proprietors, Mr Greenwell, a lot of amalgam—their first clean up—supposed to weigh 150 pounds, and was assured, upon inquiry, that this was the proceeds of four tons of second-class and three and a half tons of superior Rising Star ore. The machinery of this mill is susceptible of great improvement, being part and parcel of two old mills, working eight light stamps, four of them so light that they would suit the mortar of a druggist better than a quartz mill. But as this old machinery is only intended to be temporary, we will make no further comments, remembering that one has to stretch according to the length of his blankets.

The building itself is a splendid, solid piece of workmanship, as is also everything connected with it, and I have no hesitancy to pronounce it one of the best in the Territory. There are two roasting furnaces, each of them about sixteen feet square, but connected They roast to a charm, although the chimney is not yet completed The Superintendent, Col. Fogus, feels confident of saving ninety per cent of the precious metals, in which case our future is assured, and Flint will soon be the banner district in the production of precious metals on the coast. The mill is and will be supplied from the Rising Sun mine, situated about half a mile from the mill. They have about 250 tons of second class ore on the dump (the best had been worked in Silver last Fall) but it is the intention of the owners not to crush this for the present, and they have put a number of men at work a little south of the discovery, from which they are extracting some very valuable quartz It has been the general belief that no gold existed in our ledges, but a visit to the Rising Sun would soon convince the incredulous We have seen rock taken out within the past few days literally covered with flakes of gold and native silver, whilst the rock itself is very rich in sulphurets, and I do not see any reason to contradict the assertion of reports that this rock will average two hundred dollars per ton mill process —a beautiful prospect, considering that the ledge is from six to twelve feet wide

ITEMS.

Reports from the Dashaway continue to be encouraging, both as regards size of the ledge and quantity of the ore The amalgamators in the Sheenbar Mill are being overhauled and improved preparatory to grinding a grist from the Dashaway

It is reported that the Sherman ledge in Flint District has been sold to Chicago parties Should this prove true, we believe the parties have made a profitable investment It is no wildcat affair, but the sale of a large ledge of wonderful richness

A friend has brought in some exceedingly rich specimens of gold and silver ore from the Rising Star Mine They are wondrously rich and plenty more like them where these come from

Messrs Warnkee & Swart, of Flint, have struck a vein of superior ore in the Leviathan Various reports agree that their strike from a side tunnel shows better for the mine than any previous work

One hundred and thirty three and one third feet in the discovery claims of the Empire quartz lode on War Eagle have been sold recently for fifteen dollars per foot and the money paid This indicates "business"

Judge Hays President of the Oro Fino and Morning Star Mining Company says they expect to commence work about the first of April and that the company will make the necessary preparations

There has been no Chico mails since two weeks last night

AN ASTOUNDING ANNOUNCEMENT. The steamer *Continental* is widely known as being the vessel that brought from New York the celebrated Mercer family and consequently has a reputation that will be preserved in history for extensive importations But when it is known that the enormous stock of CLOTHING consisting of fine BROAD CLOTH SUITS BROWN and CASSIMERE GOODS and the latest sensations in spring styles for 1867 just received at the ST LOUIS STORE by Messrs KOHN & FISHEL the steamer *Continental* will be more than ever justly celebrated A call at this temple of fashion will convince the most skeptical

NEW ARRANGEMENT.—THE OLD BUCHTEL & CARDWELL PHOTOGRAPH GALLERY 80 First Street, has passed into the hands of JOSEPH BUCHTEL Proprietor and Operator who having just returned from San Francisco with ALL THE LATE IMPROVEMENTS is prepared to take every style of picture known to the art

SAN FRANCISCO ASSAYING

AND

REFINING WORKS.

No. 416 Montgomery Street,

(Successors to Kellogg, Hewston & Company.)

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT, CHAS H. McLANE,
WM C RALSTON, A. HAYWARD,
LOUIS A CARNETT.

LOUIS A CARNETT President and Manager
JOHN HEWSTON Jr. Chemist and Superintendent

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One eighth of one per cent (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent, for all amounts over that sum, and one per cent. on the silver contained Returns made in twenty-four hours

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS

On bullion under 300 parts gold 2 cents per ounce

On bullion from 300½@600 parts gold, 4 cents per ounce

On bullion from 600½@750 parts gold, 6 cents per ounce

On bullion from 750½@949½ parts gold, 8 cents per ounce

Above 950 the only charge will be for coinage But there will be no charge for refining less than two dollars

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent —and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us

RETURNS IN COIN IN FORTY EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co s Express

CHARGES AT U S BRANCH MINT

For the convenience of those not familiar with the terms of the Mint we subjoin the tariff of charges now in force at that institution

For refining bullion under 300 parts gold 2 cents per ounce

For refining bullion from 300½@600 parts gold, 5 cents per ounce

For refining bullion from 600½@750 parts gold, 7 cents per ounce

For refining bullion from 750½@880 parts gold 11 cents per ounce

For refining bullion from 880½@949½ parts gold, 14 cents per ounce

The charge for coinage is half of one per cent and the charge for making fine silver bars the same

Comparing the cost of the deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ¼ of one per cent—they must be sold at the following per cents to equal the return which would have been made had they been deposited for coinage

8?0 par to equal Mint return at refining charge of 14 cents

845 par to equal Mint return, at refining charge of 14 cents

805 par to equal San Francisco A & R Works return at refining charge of 8 cents mh1d2p3m

MT HOOD VS MT WHITNEY —Some o papers are giving themselves a good dea about Prof Wood's report on the hight The *Alta California*, not long since had on the subject attempting to throw dis Wood s statement and to convince itself ney, California, is the higher of the two lieve that Mt Hood cares the value of a c stamp about the "honor of being the high the United States," nor whether Mt. W and head is above or below its own Ever article was published, we have closely w on Mt. Hood but have been unable to d the least indication of anger or disturb countenance of the venerable old monarch and collected as ever and evidently sets a ly small value upon the opinion of mot here is what the *Alta* says "The questio lies between Mt Whitney, in California, in Oregon The former is 15,000 feet high been put down at 12,000 feet until last Au Wood made the ascent and reported its hi feet This report excited general aston mountain is in full sight from Portland and from many points on the Columbia passed every day by steamboats The lati tude of the summit are easily ascertainabl ably correctly stated on the maps of the Survey As there are a number of excelle cians among the army officers stationed since it is easy to ascertain approximately mountain by triangulation, it seems stra 17 000 feet in hight that fact should not ha before and that if not so high, no body in corrected or exposed the error It is the ger scientific men in this city that it is an err have seen Mt Hood say that it does not spectator from a distance to be so high they look with distrust upon the authorit hight of 17,600 feet rests. At the Febru the California Academy of Natural Sci Whitney made some remarks on the sub tention to the fact that a correct calculati or Wood s reported observations would m not 17 000 feet, but 34,000 feet high. Dr is very good authority, says that forest tre more than 6,500 feet above the level of Hood, whereas Professor Wood says they g feet. We are satisfied the investigations summer will deprive Mt Hood of the hono highest mountain in the United States."

PASSENGER LIST PER STEAMSHIP AJAX.— *Ajax* which sailed from San Francisco o the following list of passengers for Portl son, R M Hutchinson, Thos Burns, L Gasl berg, H Mockill, Mrs H Bunnell and so Garsaher, M Devost, John Martin, S Widg M Dekiard, Mrs O Amelie, Miss Anna C Schales, John M Guier and wife, Miss Jen Miss Mary Gates, G W Pierce, S H Carter Harris, T E Jefferson, Wm Wagner, M Bolls, Jas Daniels, Chas Sanborn, S W R Littlefield, F Carle, Chas Ewing, J W G mour, C M Farlee, J N Collins, G W Hall loway, H H Eaton E R Stillman, H P Wil ba, E M Moore, John Turner, W Babb an man and wife, A Beck, Chas Fishel, J Ball children, Rev Mr Earl and wife, A Low, W J T Mackel, U S A, Nelson Rodgers, wif Jackson, G Shindler, J L Boone, Mr Wic son, S Nathan, L C Wicks, L Newman, L Kuhls, S E Casseubon, A Sensiwiste, G Berry, J H Nichols and wife, G O Nichols, and wife, Ed Keeler, wife and two childre Cashelon, Senora Josepha Cashelon, I Bar ner, U S A, M Heyter, J R Gorden, E P Elliott, S T Levy, S Baum, John Goeta, A Sackett, W S Pledsoe, J Lance, J F Lor ell, J B Carleu, Ed Kindreth, Wm P drews, R T Robison, August Meyer, R Dou ton, R Flagherty, Geo Gunis and 150 othe

SUBMARINE "PROSPECTING"—According ment, Captain Dodge got the schooner *Gr* tion, yesterday, and sent a diver down t situation of the sunken schooner *Duc de L* minutes before 2 P M. Hugh Campbell sides of the *Growler* and sunk in about water. In a few minutes, at a signal fr was sent down, which he made fast to th sunken vessel. After being on the bottom utes he gave the signal to be hauled up a on board, where he remained a few minu descended again This time, he remained utes, but during that time went far down ward the schooner's bow. What he found been reported to us, though we understa [illegible] the opinion that the vessel can be out breaking her up. She lies very nearl the bank, and on her side. Several hundre [illegible] the performance from the bank and A collection taken up for the diver and his in the very *small* sum of seven or eight d are several adverse claimants of the sunk hear that other parties will soon make thing

[illegible] AS CITY ITEMS.—We heard from Or ening, that the Circuit Court is in [illegible] presiding, with a large attendance of a comparatively full docket. The Grand J but our informant heard only one indictme a prominent man of Oregon City, for perj false returns to the U S. Revenue A Gen Joel Palmer vs the Oregon City Wo turing Company, to recover $1,500 for President of the Company, was on trial ye son vs. Wills, to recover money, the price was submitted to the jury Defendant's the sheep were diseased The case of McG sent from Multnomah on change of venue, today The business of the Court will pr disposed of before the middle of next number of the county people were be in to

AN UNINTENTIONAL ERROR —We [illegible] the failure of Mr F. C. Horning was heard the report from not less than twent the day, and seeing that the business hou was emptied of its goods and closed, conclu to be correct We learn that Mr Hornun has not failed, but that he closed business his goods to his creditors upon an under them, which was mutually satisfactory; three small claims not thus satisfied, ha satisfactorily adjusted He also advertis to present their claims at Koshland Bros Another person whom we presume to hav edge of the matter, states his belief that was "on the square." The local reporter and don't know that he ever saw him, but of yesterday might work an injury to th the benefit of this item is cheerfully given

RECORDER'S COURT.—The case of Richar charged with an assault with a dangerous Patrick Geary, was yesterday continued.

Joseph Long and L W Ball, charged fishing tackle from Chinamen, were tried the evidence being conclusive that the d the proper owners of the tackle They pr had, but a few days since, purchased the city. The prosecution was, manifestly,

Charles Lee was tried on a charge of duct by using opprobrious language to M is described in the charge-book as "a la modesty." When it is remembered that inmate of the "Court of Death" on Seco point as to "extreme modesty," is plain dant was acquitted.

THE "YALLER DORG" CASE.—The suit J J Hoffman, to recover the value of a the defendant, acting as City Recorder, of one Acker, in a suit between Hill an for trial yesterday before Justice Anderso trial, upon the application of defend venue was granted and the case sent be When it was taken up there, the change of venue which was granted before Barney Trainor, Justice of the Portland The trial will proceed at 10 o' This case has already furnished amusement to the habitues of the court it is not entirely "worked out" yet.

A DISTINGUISHED ARRIVAL.—The teleg from San Francisco last night, announc Gustomagaro and Yudane, Commissione This must be a blunder of the telegraph name. We ravel it out thusly one Dane, Commissioner, &c We think and we are glad he has come over, thou did not look for him on this trip of the *C* comes to see Uncle Samuel's Navy Yard material, and if he likes 'em will probab

THE RED GNOME—A GREAT SUCCE Troupe produced this celebrated panto with splendid and captivating effect, few imperfections of machinery and the the stage With a few improvements to-day, they will present it in very great house was crowded last night, and a ve ture in the audience was the great num *Gnome* will be played again to-night tional scenic effects

ORDERS FOR IRON FRONTS —The Or of this city has received orders for five i buildings to be erected in Salem this and Starkey are two of the parties o Harrisburg has also contracted with th for an iron front We understand tha ties in Salem contemplate building th and that they talk of using the iron fro

FLOWERS AND SHRUBS —Miller & Lam kie, have established an agency with M at Northrup & Co a store for the sale of flowers shrubs shade trees etc F advertisement on second page or bette 131 Front street Mr Chatfield also h sets for sale

THE MOON'S ECLIPSE.—We had pr writing a long and intensely interesti eclipse of the moon on Tuesday nigh observations for a while we discovered to expose her lower limb and theref tired After that, we gave up the thing about it

TOWED UP —The steamer *Ranger* ar last evening having in tow the scho Dean, from Tillamook The schoone to carry back a cargo of general schooner *Champion* is expected to sail this port. The two we understand tion to each other.

HARD ON THE POSTAGE-STAMP STY Islands are just in sight from the outl Bay. A wag, seizing upon the fact, lowing conundrum 'Why are the latest style of ladies' bonnets? Becau the Heads, and barely visible to the

MT. HOOD vs MT WHITNEY—Some of the California papers are giving themselves a good deal of uneasiness about Prof. Wood's report on the hight of Mt Hood The Alta California, not long since had a grave article ... attempting to throw discredit on Prof ... statement and to convince itself that Mt Whitney, California, is the higher of the two We do not believe that Mt. Hood cares the value of a canceled postage stamp about the "honor of being the highest mountain in the United States," nor whether Mt Whitney is ever ... above or below its own Ever since the Alta's article was published, we have closely watched its effect on Mt. Hood but have been unable to detect thus far the least indication of anger or disturbance upon the ... of the venerable old monarch He is as cool and collected as ever and evidently sets a contemptuous small value upon the opinion of mother Alta But here is what the Alta says "The question [as to hight] ... between Mt. Whitney, in California and Mt. Hood in Oregon The former is 15,000 feet high the latter has been put down at 12,000 feet until last August when Professor Wood made the ascent and reported its hight to be 17 600 feet. This report excited general astonishment The ... is in full sight from Portland and Vancouver and from many points on the Columbia river which are passed every day by steamboats The latitude and longitude of the summit are easily ascertainable, and are probably correctly stated on the maps of the United States survey. As there are a number of excellent mathematicians among the army officers stationed in Oregon and as it is easy to ascertain approximately the hight of a ... by triangulation, it seems strange that if it is 17,600 feet in hight, that fact should not have been known before, and that if not so high, nobody in Oregon has discovered and exposed the error It is the general opinion of ... men in this city that it is an error Those who ... Mt. Hood say that it does not appear to them from a distance to be so high as Shasta, and ... with distrust upon the authority on which the ... of 17,600 feet rests At the February meeting of the ... Academy of Natural Science, Professor ... made some remarks on the subject, calling attention to the fact that a correct calculation from Professor Wood's reported observations would make Mt Hood ... feet, but 34,000 feet high Dr Newberry who ... good authority says that forest trees are not found ... than 6,500 feet above the level of the sea at Mt ... Professor Wood says they grow up to 9 000 ... We are satisfied the investigations to be made this ... will deprive Mt. Hood of the honor of being the ... mountain in the United States

ADVICE THAT WE CANNOT TAKE—We were overhauled several times, yesterday, for publishing the facts concerning the existence of small pox in this city, and advised to say as little about it as possible! Now you reader who may be troubled with squeamish humanity what do you guess was the reason urged against making this matter public? Why simply that if people in the country learn that the small pox is in the city they won't come here to trade—it will injure business. [illegible] But business considerations aside when there is a plague among us publishers of news [illegible] suppression of facts or by the publication of false alarms We choose to yield to such obligations rather than to business considerations

WILLAMETTE FREIGHTS.—Arrived per steamer Alert Wednesday March 20th 3 hlf bbls produce, 1 pkg furs 1 pkg socks 46 sks bacon 4 bxs eggs 151 bxs apples 135 hlf bbls dried apples 2 054 pr sks flour 3 horses 1 pkg mdse, 3 rolls leather 1 valise, 4 bales woolen goods, 36 sks feed and 1000 feet flooring

COLD —On the morning of Tuesday the 12th inst the thermometer at Walla Walla showed a temperature of five degrees below zero This was twenty five degrees colder than at Portland on the same morning

THE FIDELITER —A telegram dated Victoria March 19th says the Fideliter sailed for Portland at 9 o clock on that day She will probably arrive here this evening or to morrow

TREASURE SHIPMENT —Wells Fargo & Co shipped per steamer Continental $25 000 This added to the amount mentioned yesterday morning makes a total of $85 000

TREASURE ARRIVAL —Wells Fargo & Co received from the upper country by the Cascades, yesterday $25 000 in treasure

LATEST AND MOST FASHIONABLE STYLES —If you want to be certain of obtaining the latest and most fashionable styles of clothing and gents furnishing goods go straight to Barman Bros They have got no obsolete styles

SPRING AND SUMMER STYLES.—J C. Meussdorffer & Bros received by the last steamer a lot of fashionable spring and summer styles of gentlemen s caps, which are light, neat and very pretty—four varieties Also some of the latest and most fashionable styles of ladies hats of a beautiful pattern and texture. Nobody can fail to like them, and besides that, all the styles mentioned above are inexpensive They also have a lot of China pith hats for summer They are prepared to offer great inducements to wholesale purchasers of the beautiful and favorite styles of hats called "The Yacht Henrietta." Call and examine for yourselves

Are you disturbed at night and broken of rest by a child suffering and crying with the pain of cutting teeth? If so go at once and get a bottle of MRS. WINSLOW s SOOTHING SYRUP It will relieve the little sufferer immediately It cures wind colic, regulates the bowels and is perfectly safe in all cases Thirty five cents a bottle. Hostetter, Smith & Dean, Agents for the Pacific coast.

A neglected cough, cold or sore throat which might be checked by a simple remedy like "Brown s Bronchial Troches," if allowed to progress may terminate seriously For bronchitis, asthma catarrh and consumptive coughs, "The Troches" are used with advantage giving oftentimes immediate relief Singers and public speakers will find them also excellent to clear the voice and render articulation wonderfully easy

A WORD ABOUT COLORS —There are two colors that are very popular in our country, viz The National colors and the Family Dye Colors For the former we are indebted to the patriotic spirit of the American people and for the latter to Howe & Stevens one of the most enterprising firms in the country The colors of each neither fade nor run Sold by Smith & Davis

Willamette Engine Company No. 1 —Drill this (Thursday) evening at 7 o clock By order of the Foreman

PERRY DAVIS' VEGETABLE PAIN KILLER

THE GREAT FAMILY MEDICINE OF THE AGE!

Pain Killer taken internally should be adulterated with milk or water and sweetened with sugar if desired or made into a syrup with molasses For a cough, a few drops on sugar eaten will be more effective than anything else For sore throat gargle the throat with a mixture of Pain Killer and water and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally Each bottle is wrapped with full directions for its use Dyspepsia can be and is cured every day by the use of Perry Davis Pain Killer This is the most wonderful and valuable medicine ever known for this disease Its action upon the system is entirely different from any other preparation known The patient while taking this medicine may eat anything the appetite craves Sold by all medicine dealers mh20dawlm

Bronchitis or Chronic Sore Throat —It is attended with irritation of the bronchial tubes which convey the air we breathe into the lungs The irritation produces sore throat hoarseness coughing and sometimes spitting of matter streaked with blood If it is neglected it will extend down to the lungs and settles into confirmed consumption ALLEN s LUNG BALSAM will be found a most valuable remedy for curing this disease, and prevent its running into the consumption For sale by dealers in family medicine generally ta20

Take **AYER'S CHERRY PECTORAL** to stop your colds coughs and bronchial affections before they run into consumption that you cannot stop

G. VENARD,
CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities CREAM OF TARTAR and SPICES of all sorts

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters Nevertheless, buyers should be forewarned, and placed on their guard against this practice

BEWARE OF COUNTERFEITS.

Each package bears the signature of G VENARD.

Slack a Little.

Slack a little! Slack a little,
Darling wife;
Why such breathless haste and hurry,
All thy life?
Slack the vigor of thy striving,
Ere too late
Tell those monsters, Care and Labor
Just to wait

Slack a little! Slack a little,
Busy hand!
Slack thy rubbing and thy scrubbing,
Drop the sand
Minister thy blessing slowly
And the longer!
Bind love's thousand precious tendrils
All the stronger!

Slack a little! Slack a little,
Weary feet!
'Tis a thorny road ye're treading,
Death to greet;
Slack your quick and fearless stepping,
Spare your strength!
To the golden streets of heaven
Shall tread at length

Slack a little! Slack a little,
Precious heart!
Slack the fervor of thy throbbing,
Ere we part;
Thrill not thus with every sorrow,
Anxious ever!
Trembling like an Angel Lyre
Forever.
Strung for high and holy themes
Slack thy sorrow;
Heaven those rapturous themes may wake
Perhaps to-morrow!

Slack a little! Time how fleeting,
Slack thy wing!
To my heart's long cherished treasure
Let me cling!
Go to Mirth and from his chalice
Take the pleasure;
Pilfer Wealth, and from his palace
Take his treasure;
Why such haste my night to bring!
Slack, O Time, thy scythe and wing!

Slack a little! Slack a little!
Death, O Death!
Vain thy strife and panting haste,
All out of breath!
See! she fears not thy approaching—
Thou hast no sting!
Clasp her! In thy cold embracing
She will sing!
Slack, O Death! how sure thy loss,
Thou was conquered on the Cross!

Reminiscence of the Proslavery Epoch.

The New York *Evening Post* has the following interesting reminiscence:

About the year 1830 a panic was raised in several of the Southern States by the discovery of scattered copies of an inflamatory pamphlet called *Walker's Appeal*, which were found here and there in the hands of the more intelligent slaves. David Walker was a negro, having his home in Boston, and his pamphlet was devised and written wholly by himself, and published at the expense of a few colored men who had earned something more than a living.

One of the chief of the company was James E. [illegible], a sweeper of chimneys, in whose house [illegible] lived. A conversation with Scarlet by a gentleman of this city in 1833, in which was de[illegible] the crushing anxiety of these two friends as to the future of their sons under the weight of [illegible] then everywhere existing, led to some results having more than temporary or personal importance, of which we need not now speak.

A copy of Walker's pamphlet lies before us as we write. It is the third edition, dated 1830, makes 81 pages octavo, and purports on the title page to have been written in Boston in 1829. It is an "Appeal to the Colored Citizens of the World," and undertakes to show that "We colored people of these United States, are the most degraded and abject set of beings that ever lived since the world began," and that "the Christians of America who hold us in slavery, treat us more cruel and barbarous than any heathen nation did any people whom it had reduced to the same condition." It is evidently the work of an illiterate negro, of powerful intellect, fired with the deepest earnestness, and pouring out his thoughts in un[illegible] sentences, but with words of great force. He urges the people to education, to self-respect and self-defense, and to an inflexible hostility to the "colonization plan," which he held to be the chief cause of their wretchedness. He says, page 37:

"I would crawl on my hands and knees through mud and mire to the feet of a learned man, where I would sit and humbly supplicate him to instill into me that which neither men or devils could remove only with my life. For colored people to acquire learning in this country makes tyrants quake and tremble on their sandy foundations. Why, what is the matter? Why, they know that their infernal deeds of cruelty will be made known to the world. Do you suppose one man of sense and learning would submit, himself, his father, mother, wife and children to be slaves of and to a wretched man like himself, who, instead of compensating him for his labors, chains and beats him and his family almost to death, leaving life, enough, however, to work, and call him master? No, no! he would cut his devilish throat from ear to ear, and well do the slaveholders know it. The bare name of educating the colored people scares our cruel oppressors to death. But if they do not have enough to be frightened for yet, it will be because they can not always keep us ignorant. The whites shall have enough of the blacks yet, as true as God sits on his throne in Heaven."

Walker had traveled secretly over the South, [illegible] his self-appointed mission, until his soul was [illegible] at the oppression he saw. He used to go out and distribute his pamphlets with his own hand; only a few ever came into the hands of white men North or South. This was years before the beginning of Mr. Garrison's agitation among the whites. At length poverty and sickness cut short his labors, which found no encouraging response among the people—his experience forcibly recalling that of the first Moses among the Hebrew slaves in Egypt.

The man and his pamphlet are brought to our recollection by reading the following paragraph in a Boston paper:

"ANOTHER TRIUMPH.—The Republicans of Charlestown, Mass., have nominated for the Legislature Ed. Garrison Walker, Esq., son of David Walker, famous as the author of a pamphlet which 36 years ago created a great stir at the South. This gentleman, a lawyer in Charlestown, has been long prominent in political meetings, and will do credit to himself and race everywhere. His election is regarded as certain."

The election has taken place, and the son of David Walker will take his seat among the legislators of the old Commonwealth, where the father shed tears of agony at the prospect of his children—in a city where at that day, "the School Committee forbid the colored children learning grammar," as he says at page 39.

AN EXTRA HAZARDOUS RISK.—A solicitor for a Life Insurance Company called on a down town merchant, a few days since, with a view to effect an insurance on the merchant's life. He entered into a general conversation with the gentleman, and having incidentally touched upon the benefits of life insurance by way of breaking the ice, proposed to make out a policy for $10,000 on the merchant's life.

"Sir," said the merchant, "I do not believe in life insurance. It is interfering with the decrees of Divine Providence, but if you can insure my safe arrival into the kingdom of Heaven, I will take out a policy."

"We should be happy to do so," replied the solicitor, "but it is impossible, as *our Company does not take fire risks*.—*Bulletin*.

LIBRARY DISCOVERIES.—Henry Bradshaw of the Cambridge University Library, has made two noteworthy discoveries in that library. He has found some fragments of a Tory book, written by John Barbour, the Scottish poet, intermixed with Lydgate's poem, in all about 2,200 lines. The evidence leaves not the slightest doubt of the authorship. Subsequently, in a manuscript at Oxford, Bradshaw found 1,200 lines more of the same poem. The other finding is 40,000 lines of "Lives of the Saints," also by John Barbour. Were all librarians of English libraries as industrious as Bradshaw, many more valuable relics would be brought to light.

A farmer who lately died near Montpelier, Vt., left $6,000 in his will to his wife, to be her property as long as she remains unmarried, and, after her death, to be used in erecting a monument. But if the widow gets married, she is to have only $2,000, and the remaining $4,000 is to be expended on the monument.

The Petersburg, Va., *Index* created a great flutter among the female portion of the community by the announcement, a few days ago, that it intended to give a list of all the ladies in town who were fifty years and upward. Virginia ladies are, like all others, careful of their ages.

Prof. Henry W. Longfellow, Dr. Samuel G. Howe, Mr. Edmund Quincy, Prof. Oliver Wendell Holmes, James Russell Lowell, James T. Fields, Edwin P. Whipple and Mr. Merritt Trimble of New York, acted as pall bearers at the funeral of N. P. Willis, in Boston.

Mount Baldo, in the Italian Tyrol, is giving signs of a probable eruption. The neighborhood is frequently disturbed by shocks resembling those of an earthquake, and a livid brightness appears above the top of the mountain at night.

A bench of magistrates in Derbyshire, England, have just sentenced Jem Mace, Joe Goss and three other less notorious pugilists, to a month's imprisonment with hard labor, for taking part in a prize fight.

General Report of the Public Schools of Multnomah County for the Years 1866-7.

Number of districts reporting, 25.

Number of districts not reporting, 4.

Number of voters reported, 1,266.

Number of pupils between the ages of 4 and 20 years reported, 2,547

Number of males reported, 1,224.

Number of females reported 1,321

Number of quarters of school taught, reported, 81

Number of pupils in average attendance, 1,055

Number of teachers employed in our public schools during the year 46

Number of male teachers 24, female, 22

Number of schools that use Sander's spellers, 23, Webster's 2.

Number of schools that use Sander's Readers, 16, Parker & Watson's, 11, Willson's, 2.

Number of schools that use Clark's Grammar, 13, Pinneo's, 2, Bullion's, 5, Smith's, 2

Number of schools that use Thompson's Arithmetic, 16, Ray's, 2, Davies' 9, Robinson's, 1

Number of schools that use Monteith's & McNally's Geography, 25, Clark's, 2

Number of schools that use Spencerian Copy Books, 14, teacher's copies, 5.

Amount paid to teachers from district tax, $515 50; county funds, $9,748 12, subscriptions, $199 87.

Whole amount paid to teachers during the year, $10,713 49

Average wages of teachers per quarter, $132 26

Average wages of teachers per month $44 08

Amount paid for incidental expenses during the year, $1,275 32

Amount of tax levied during the year, $11,930 51.

Amount of taxes collected during the year, $10,218 58.

Amount of tax paid for building and repairing school houses and for land, $6,138 75

Value of school houses, furniture and lots in the county, $35,050 00.

Number of new school houses erected during the year, two, costing $1,300.

Cost of land purchased for school houses, $4,400

In addition to public schools, we note the number of Academies in the county, for males and females, 2 Number of pupils enrolled on their records, 200.

Number of Female Seminaries, 1. Pupils enrolled on its records, 200.

Number of private schools in the county, 5. Pupils enrolled in them, 125 (?)

Estimated number of pupils enrolled in all the schools of the county, 1,800.

Estimated value of school property, held by corporations, $35,000.

Estimated value of school property, held by individuals, $2,000.

Estimated value of school houses, grounds and fixtures, in the county, $75,000.

SPECIAL DISTRICT REPORTS.

District Number One (1), including the city of Portland, has 1,735 pupils between the ages of 4 and 20 years, being an increase of 113 over last year, and 440 over 1865. The two large public schools have usually been crowded, especially the primary departments. For salaries, $6,597 93, have been paid the teachers from the county funds, nothing from taxes or subscriptions. The incidental expenses have been $930 19. The amount of taxes assessed is $10,811 93. The amount collected is $9,000. The amount applied for repairs during the year is $402 25.

Of our 1,735 pupils, only 702, on an average, attend the public schools, although probably 900 are enrolled during the year. We have in the city 2 Academies for males and females, which enroll 200 pupils. One Female Seminary (Catholic) enrolls 200 pupils; one school for boys (Catholic) has 50. Three or four private schools have about 70 more pupils, making the whole number of children in school in the city about 420, and leaving over 300 children without school accommodations. This shows the immediate need of erecting another school building, which we trust will be done on the block lately purchased on the Couch Addition.

While all our teachers are laborious, faithful and in a degree successful, they feel the need of more thoroughly grading the schools, especially the primary departments. To crowd 200 little children into two rooms and require four teachers to fit them for the middle or first Grammar department is a task too great for teacher and pupil. The result is that the classes advance but slowly, and enter the higher grade poorly prepared. Such additions lower the standard in the second grade, and the next result is to send unprepared classes into the third grade, and to lower the standard in that also. Our teachers struggle to overcome these difficulties but their success can only be partial. Our first great remedy is to have rooms suitable for fifty or sixty primary pupils properly classified under one teacher, the rooms being so connected that all can be together for general exercises. (The San Francisco schools have six such grades, and so have the schools of other cities.) The upper grades could then be so adjusted as to bring out the finest progress of our pupils in the common studies, and prepare them well for the higher studies.

It should be said that our present schools have some of the best classes (considering the age of the pupils) in Grammar, Geography, Reading, Spelling and Arithmetic that we have seen in the State or elsewhere.

The average wages of our teachers per year is about $680, or $170 per quarter. The average cost of tuition per year to each pupil is $7 33, or less than $2 per term. Estimating 1000 pupils in the schools the current year, we have in the treasury of public school funds $7 90.4 per scholar In other words the public money nearly pays all tuition bills, leaving buildings, grounds, repairs, &c., to be paid by direct tax. We find that every improvement in school facilities draws additional facilities and pupils enough to meet the extra expenses. What is spent for schools here, as elsewhere, proves to be our surest and best investment.

District No. 2, including Brooklyn, reports 53 pupils, eight less than last year, and ten more than in 1865. A commendable zeal is manifest there to increase the number of terms per year, and thus the value of the school. If this is done, more pupils, and thus more money will, no doubt be drawn to the district. Why may it not soon be graded into at least two departments? We commend the idea to the directors.

No. 3, lying along the Columbia slough, includes only nine families, and has two pupils less than in 1865, and eight less than in 1865. If the large farms were divided, so as to allow more settlers, it would greatly increase the value of the district and the school interests. Yet by the zeal of those few families, provision is made to extend the school terms several weeks annually.

No. 4, lying in Powell's Valley, continues two terms in its pleasant school house, having about the same number of pupils from year to year.

No. 5, including Mt Tabor, reports ten more pupils than last year, and indicates increased prosperity, in its newly repaired and seated house, especially under the care of its present experienced teacher.

No. 6, including our most south-easterly settlement, reports eleven less pupils than last year, and three less than in 1865. The district faithfully spend the public money, and their school of one or two terms per year shows some improvement.

No. 7, lying east of No. 3, on the Columbia Slough, has large farms, few families, and few pupils, but by private effort a good school was continued for six months, which we trust will be continued six months more under the same teacher, Frequent change of teachers proves injurious to a school.

No. 8, covering a large area along the Columbia and Sandy, and drawing a large amount of county funds, has resolved to employ a gentleman of experience in teaching, and thus improve its school. We commend this action

No. 9, now enlarged and extending across from the Willamette to the Columbia, is able to erect a school house and employ a teacher for at least two terms per year We hope to note real progress in the school affairs of the district during the current year.

No. 10, having its school house away from the public road, with its scattered families, finds less encouragement than its neighbor, No 4, on the west of Powell's Valley. It requires some wisdom to adjust the boundaries and locate the house, so as to accomplish more for the school.

No. 10, at the head of Sauvie's Island, reports the smallest number of pupils, and consequently the least progress If possible, the bounds of this district should be extended to include more families and thus increase its means of efficiency.

No. 12, on Johnson's Creek, has just been enlarged, and we hope to see a neat school house erected in that pleasant little valley, and to have a good school reported next year.

No. 13, in the south west corner of the county, has lost its organization, and of course its portion of the county funds The purpose of some of the citizens to re organize is a good one

No. 14, on the Talbot Mountain, has built a neat and substantial school house, at the cross roads, at a cost of $650, and now in their increased school, besides Sabbath school and meetings, they see the advantage of being on the public road, instead of building off in the woods, because it happened to be in the centre of the district. Success will attend that district.

No. 15, in Pleasant Valley, has a neat school house and always an interesting school, showing a good degree of zeal in prolonging the term by tax.

No. 16 has lost its name and place.

No. 17, lying on the Columbia Slough, west of No. 3, keeps up a good school seven or eight months of the year in its white and inviting school house

No. 18, west of No. 17, on the Slough, now extends to the Columbia, and with its increase we hope to see united effort to erect a school house at or near the cross roads No spot is more attractive or convenient, being near the centre of the district, the bounds of which we trust will remain

No 19, occupying part of the upper half of Sauvie's Island, has area enough and pupils enough to have a good school six or eight months of the year, but the semi annual floods greatly hinder the prosperity of school matters.

No 20, east of the Sandy, has lost its organization

No 21, including East Portland, though reduced in area yet maintains its rank as second in the county both in the number of its pupils and the efficiency of its school It was an injury to divide this district, which, with those cut off would have had 123 pupils, enough for a grade of two departments The re union of 21 and 31 would be beneficial to both

No 22, on the mountain has improved its house and sustained a school for two terms, promising well for the future.

No 23, mostly in Washington county, receives its stipend for five pupils for this county

No 24, like No 16, has lost its name and its place

No 25, including Springville, has erected a tasteful school house at a cost of $650 and has quietly conducted its school matters All the peninsula between the Willamette and Columbia, west of No 9, ought to be included in No 21, that the pupils may draw funds and the school term be increased

No 26 has no place

No 27, North of Portland and west of the Willamette, needs more families and more attention on the part of its citizens A few are left to care for the school

No 28, including the Canyon, has no school or house.

No. 29 is attached to No. 18 and 9

No. 30, on Government Island, begins its organization with encouraging prospects

No. 31, opposite North Portland, commences with fair prospects, but they would be fairer if it would again unite with No 21

No 1 Columbia county, draws its stipend from this county for seven pupils on Sauvie's Island, and expends the funds regularly in schools

No 1, Clackamas county, draws a stipend for seven pupils living in Multnomah county, near Milwaukie, and expends the same in a good school

The schedule of distribution of funds is here with appended.

PUBLIC SCHOOL FUNDS FOR 1867 IN MULTNOMAH COUNTY.

Amount reported from County Treasurer for distribution

Coin . . .	$9,537 11
Currency	2,641 53
Total	$12,178 60

Number of pupils between the ages of four and twenty years in the county is 2,540

Amount drawn by each pupil, coin $3 74.591. currency $1,08.

It is to be expected that the income from school lands will in part be available ever after this year Districts ought to see that their organization is completed, and that their bounds are such as to give them a just share of the public funds It is highly important that the districts secure the best teachers, and keep them from term to term, as this will give more unity and progress to the schools. The effort to do this will attract a better class of teachers to our schools, as we have already seen. It is to be hoped that the wages of teachers will be increased rather than diminished, and thus we may hope to secure better instructors. It is desirable for teachers to visit each other's schools, especially the schools of Portland.

G. H. ATKINSON,
County School Superintendent.
PORTLAND, March 20, 1867.

Says the Walla Walla *Statesman* of the 15th inst.:

Capt. Oscar J. Converse, for several months commanding officer at Fort Walla Walla, has been relieved and ordered to join his regiment, the 14th Infantry. Lieut. Force, of the 1st Cavalry, succeeds to the command of the post. Capt. Converse, during his brief residence in our midst, has made many friends who regret that duty calls him to another field of service.

Mr. Rue, the member of the New Jersey Legislature, lately sentenced to the Penitentiary for bribery, is not compelled to wear the prison uniform, and a visitor says his principal business seems to be to keep up the fire in the keeper's private office.

LEFFEL'S AMERICAN DOUBLE TURBINE

THESE WHEELS, unequaled and unrivaled in the United States or the world, have been fully tested on this coast more than forty being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c, &c.

On account of the extraordinary demand, our stock of wheels is considerably reduced, and we are entirely out of several sizes, therefore parties contemplating using our wheel, to be certain of securing them in time, should give their order at least three months before they expect to get them, that we may be able to make them by the time needed

We cheerfully refer to all using our wheels, and are assured that *all will affirm that our wheels accomplish all and even more than we claim for them* Address

LEFFEL & MYERS,

AUGUSTUS TAYLOR,
Late of Jacksonville, Oregon
Portland March 13, 1867 mh13d4ptf

Keep your Money in the Country

AND ENCOURAGE

HOME MANUFACTURES!

WE ARE MANUFACTURING A SUPERIOR ARticle of

TURPENTINE!

Which we offer to the trade at less prices than has ever been sold in Oregon, thereby offering inducements to purchasers to use it in preference to the eastern or foreign article, which is no better if quite as good.

First we consider that the country is in need of Manufactures, and that we are determined to make as good an article as is made elsewhere and sell for a less price

Orders sent from the country to the Factory, corner of Front and Clay streets, will meet with prompt attention.

NORTHROP & GOVE,
Portland, March 5, 1867. d4ptf Proprietors.

Medical Cards.

DR. HENLEY'S

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARrive when a new direction is imparted to its course These epochs proceed from discovery of new facts shedding a light which changes the whole aspect of the science The present is an epoch of this kind and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood The FOUNTAIN OF LIFE is composed entirely of vegetable extracts, it contains no Mercury or other mineral substance

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way but more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE might now be enjoying the blessings of life and health It requires an article of real merit and intrinsic value to sustain itself. During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting

Dr HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world and eradicate the disease entirely from the system, or no charge should —provided they will secure him his pay when they are cured

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, Oregon and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years

DR WM HENLEY,
feb8d1ptf Portland, Oregon

DR. G. W. BROWN

HAS located in Portland in CARTER'S NEW BUILDING, for the permanent cure of all private diseases, such as syphilis, gonorrhea, gleet strictures &c. He also calls the attention of those suffering with

DISEASES OF THE EYES

to call at his office and be at once restored. Surgical operations SKILFULLY performed on the EYES for film, cataract, strabismus or cross eyes

Below are some of the many testimonials

This is to certify that I, John B Jodwan, was blind for over nine years, and I tried all means of a cure, and and many doctors, and all of no effect, and I spent all the means I had Finally, I had to become a county charge, and when I was taken to Dr G W. Brown, and stated my case to him, and misfortune, he at once commenced to treat my eyes and now I am well, and commend all those that are suffering with diseases of the eyes to call on Dr G W. Brown The reason why I do this is to let suffering humanity know where they can be cured

J B JODWAN

STATE OF OREGON, Marion County, ss—Subscribed and sworn to before me this 22d day of November, 1866

SETH R HAMMER, Notary Public.
SALEM, Feb 19, 1866

This is to certify that my daughter was almost blind for over seven years, and was doctored by other physicians without obtaining any relief, when finally I took her to Dr G W Brown, who examined her case, and at once began to give her treatment, and her sight has been entirely restored I do this to let those who are suffering with diseases of the eyes know where they can obtain a cure It has been three years since her eyes were cured, and they are yet sound

THOMAS LIVINGSTON,
Deer Creek Precinct, Douglas county, Oregon
SALEM, July 21, 1866

This is to certify that I was blind for over four months and almost blind for one year and a half, I tried several eye doctors but received no benefit, I had almost given my case up as hopeless when fortunately I heard of Dr. G W Brown, now of Salem. I was induced to try him; he performed a surgical operation on my eyes, and gave me treatment I soon began to recover, and in a short time I was perfectly cured. I do this in justice to one who rescued me from a fate worse than death, and also for the benefit of those who are laboring under similar afflictions that they may know where they can get relief It is now about eight months since my eyes were cured and they still remain good I can see to read the finest print without difficulty, and my eyes can bear the strongest light without pain

ALEXANDER MITCHELL

Subscribed and sworn to before me this the 21st day of July, A D 1866 SETH R HAMMER,
dec4dtf Notary Public.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats monomania and frequent insanity If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of affecting a quick and radical cure Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR J. F GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

Consultations FREE.

Prevention Better than Cure.

The newly invented Patent French Safe, a sure Preventive against Diseases and Pregnancy, sent by mail Price $2 Address DR J. F. GIBBON, 616 Kearney St, cor Commercial, San Francisco Postoffice Box 252

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian* (or *Weekly Oregonian*, as the case may be)

THE UNDERSIGNED WOULD RESPECTFULLY inform the citizens of Portland and the traveling community, that he is now ready to receive and entertain all who may favor him with a call, in a manner and at prices to suit the times.

"THE GLOBE" is a NEW HOUSE, just finished; the rooms are large, well ventilated and elegantly furnished with carpets, &c., &c. The table will always be supplied with the very best the market affords.

It will be the constant and earnest endeavor of the proprietor to so conduct the "GLOBE HOTEL" as to give entire satisfaction to his guests; he would therefore respectfully solicit the patronage of the public.

my4,1m PHILIP SCHAD,

GOOD GRUB AND PLENTY OF IT!

AT THE

Bennett House,

SALEM, OREGON.

L. JAY S. TURNEY,

HAVING LEASED THE ABOVE NAMED HOTEL, is prepared to accommodate the traveling public, and on a HUNDRED REGULAR BOARDERS, in as good style as any House on the Coast. He has determined to make the "Bennett" as good as the best and *better* than any public house in Salem. He will soon complete some important improvements, which will add greatly to its appearance and comfort, and intends to merit and hopes to receive his share of patronage

He has secured the services of "Charley" (known to be the best cook in Salem, and one of the best in the whole country) and other competent persons to manage the culinary department, and is resolved to set as good a table as can be found anywhere—not in clap-trap, pomp and show, flummery and fine furniture, but in an abundant supply of the very best the market affords.

His Bar room will be kept warmed and lighted, and well supplied with newspapers, periodicals and other suitable reading matter, and kept in a manner which will make it an agreeable resort.

In short, he intends making an effort to please ALL who stop at the BENNETT HOUSE. And he most respectfully requests his friends everywhere to give the old and well known stand at least one more trial before concluding they can do as well elsewhere, and promises if they are not well treated, and properly cared for, *and at reasonable figures*, it will not be the fault of the public's most obedient and most humble servant,

L JAY S TURNEY,

N. B.—Furnished rooms with or without board, by the day, week or month, at the Bennett, charges moderate L J S T.

THE OYSTERS

PACKED BY

Louis McMurray & Co

OF BALTIMORE,

ARE ACKNOWLEDGED BY THE ENTIRE San Francisco jobbing trade to be beyond comparison the best that come to this market. That

THEIR EXCELLENCE IS NOT IMAGINARY

Any one who has tried them will admit, and the whole secret of their superiority, lies in the extraneous and immense expense lavished upon their preparation. Each Oyster is opened by hand with the knife with strict regard to the preservation of the Liquor, by which means all the original flavor is retained Contrast this with the one usually pursued of opening the Oyster in bulk by steaming, by which means the native flavor is lost, and a manufactured one is substituted, and the reason for the actual superiority of this brand is at once apparent

For sale, plain and fresh, in one and two pound cans.
